Abstract & Knowledge

I've always loved technology, since I was young I tried to understand how things worked and were developed.

I am increasingly fascinated with all the possibilities and innovations of the digital world, so I never stop learning and improving my skills, evolving and making a difference as a Full Stack Developer.

Knowledge in:

JavaScript, Typescript, React, NextJS, Redux, Context API,
Styled Components, HTML5, CSS3, NodeJS, SQL,
PostgreSQL, Docker, MongoDB, Scrum, Kanban
